

FIX & MAINTAIN ALL GAS & DIESEL ENGINES

FUEL SYSTEM CLEANER & FUEL STABILIZER

This ultra-concentrated synthetic gasoline & diesel additive is for use in all gas, gas-ethanol blends, diesel and biodiesel blends. Just pour in the fuel tank of any 2-cycle, 4-cycle, or diesel engine to help fix & maintain your cars, trucks, boats, tractors, small engines and more. Use regularly to maintain PEAK ENGINE PERFORMANCE.

- Cleans injectors and the entire fuel system so that it starts efficiently and operates in top condition
- Fuel stabilizer keeps fuel fresh; protects the engine, prevents problems & helps with easy starts after storage
- Superior antioxidant and anticorrosive package
- Removes varnish, shellac, carbon deposits and disperses water in the fuel system
- Helps prevent the formation of fuel contaminants including gums, varnishes, sludge deposits, bacteria, fungus
- On machine carburetor, injector, & internal engine component cleaning
- Reconditions rubber and plastic components and rejuvenates rubber gaskets and seals
- Replaces lost lubrication, extending the life of pumps and injectors
- Helps revitalize old fuel
