

HOW TO USE VIDEO:
place phone camera
over image below,
then click the link
that pops up.

**CONCENTRATE BAG
BEFORE ADDING WATER**

MIXING INSTRUCTIONS (see images to right):

1. Fill bag to top of label with warm to hot tap water.
2. Use top and bottom handles on bag to shake vigorously to mix water & concentrate.

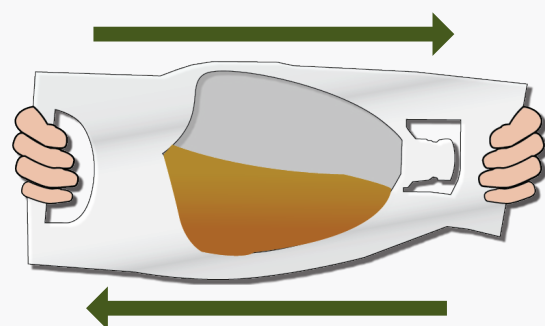

Shake VIGOROUSLY for 60 seconds or more until it is a uniform color.

3. **DO NOT USE IMMEDIATELY:** Let bag sit for approximately 30 minutes or more to allow the mixture to thicken.

The bar & chain lubricant is now ready to use.

NOTE: Always shake well before using.

SHAKE BACK & FORTH WITH HANDLES

**AFTER WATER ADDED
AND SHAKEN**
